

**Mastech**  
**Body Infrared Thermometer MS 6530C**

Body Infrared Thermometer is specially designed to take the temperature of forehead .  
Its quick and precise function can screen out higher temperature in the crowd.  
The device is non-contact body infrared thermometer which can prevent cross-infection.  
The temperature is a consultative measurement, which is not a medical result.

### Features & Specs

Measuring Mode	Non-contact infrared measure
Measurent range	28°C~42°C
Accuracy	±0.4°C
Resolution	0.1°C
Response time	<1S
Operation temperature	10°C-35°C
Power	9VDC
Measuring distance	<=200mm
Laser power	<0.1mW
MAX;MIN;MAX-MIN;average selectable ;/* display selecton	
Standard alarm temperature	37.5(operation temperature:25°C; measuring distance<200mm ;0.4°C)
